Program Information

Dear Patron,

Eco-Photo Explorers would like to thank you for your interest in our organization as well as our programs. We try to promote public interest in protecting the underwater environment through knowledge and awareness. By allowing us the opportunity to present our programs, you help to enlighten the public on special subjects. This new knowledge and awareness may help the generations of today make a better place for tomorrow.

All information about our *organization, program descriptions/times/dates, room layout or setup diagrams* as well as *member biographies* can be access from the Internet. From here, you will be able to view our most current program material, see where we will be presenting next, keep up to date on upcoming expeditions or read about past ones. You will also find other interesting links to explore as well. This site is our way to help keep you informed.

Please note that there are **two performers** that present our programs. Both individual names should be listed together on **all program advertising material** as well as our organization name. Both names as well as our organization name should also be listed on **all contract material**. All fees are to be payable to Eco-Photo Explorers.

Performer Names:

Christopher Weaver, Michael Salvarezza
