Come back soon for details on this session.

**SPEAKERS:** Robert Kunkle, Film-maker  
**TIME:** TBD  
**LOCATION:** Claudio's Restaurant On Main , 2nd floor

#### THE STORY OF THE HMS CULLODEN: SUNKEN HISTORY ON LONG ISLAND

Join Eco-Photo Explorers as they examine the story of one of our most historic shipwrecks: the *HMS Culloden*. A British warship sent to Long Island during the Revolutionary War, the *HMS Culloden* came to rest in Fort Pond Bay, Montauk, after battling a ferocious winter storm while attempting to defend the territory from a French fleet coming to the aid of the American colonialists. In this fascinating program, the entire history of the *HMS Culloden* will be uncovered, along with its role in the Revolutionary War and its fateful last mission. During this presentation, Eco-Photo Explorers will take viewers to the final resting place of the shipwreck through rarely seen underwater images and video.

**SPEAKERS:** Christopher Weaver and Michael Salvatorezza, Eco-Photo Explorers  
**TIMES:** TBD  
**LOCATION:** Claudio's Restaurant On Main , 2nd floor

#### LONG ISLAND MARITIME HISTORY: STORIES OF TRAGEDY AND RESCUE

Long Island has a very rich maritime history. From the early colonial days to modern times, the shores and offshore waters of Long Island have often been the stage for fascinating drama. Tragic shipwrecks, heroic rescues, unbelievable courage and fascinating history are all part of the fabric of Long Island. The story of the Pelican, a fishing boat lost off Montauk in 1951, will be a featured story in this program, along with other spellbinding tales of marine rescues and shipwrecks. The program will conclude with an examination of the history of the Life Saving Services here on Long Island. Join Eco-Photo Explorers for a fascinating look into the Maritime History that is Long Island.

**SPEAKERS:** Christopher Weaver and Michael Salvatorezza, Eco-Photo Explorers  
**TIMES:** TBD  
**LOCATION:** Claudio's Restaurant On Main , 2nd floor

### DISTINGUISHED SPEAKERS

#### JESSE MATSOUKA, PRESIDENT MANNA SEAFOOD BLOCKCHAIN

Founding Partner and president of Manna Seafood Blockchain, is Japanese-American Entrepreneur/Restaurateur with over 20 years of experience working in the US, Japan, Hawaii. His successful business ventures range from start ups to established restaurants with over 25 year history. He is now bringing his experience and passion for sustainable seafood to Manna Seafood Blockchain. Jesse has worked under mentorship of renowned seafood experts worldwide.

#### DONNA LANZETTA, VICE-PRESIDENT MANNA SEAFOOD BLOCKCHAIN

Donna Lanzetta an attorney and entrepreneur with a passion for sustainable seafood production. Motivated by a concern for our world's growing population, our declining wild fish stocks, and the urgent need to feed our growing numbers, Manna Fish Farms (Manna) is currently awaiting permits to operate a sustainable and transparent fish farm, and to research Integrated Multi Trophic Aquaculture (IMTA) off the Eastern Coast of The United States.

#### ROBERT KUNKEL, MANAGING PARTNER HARBOR HARVEST & PRESIDENT ALTERNATIVE MARINE TECHNOLOGIES

Robert Kunkle is a ship builder best known for his documentary *The Last Line* about his hybrid electric catamaran. Bob's perspective of critical ship's systems, marine engineering, sequential construction objectives, and operation safety standards are invaluable for successful, design to commissioning, marine construction projects.

#### MICHAEL SALVAREZZA, ECO-PHOTO EXPLORERS

Michael Salvatorezza and Christopher Weaver have been diving the waters the world since 1978. They have presented their work numerous times at all of the major dive conferences, and have published more than 200 articles in numerous magazines and periodicals, including National Geographic Adventure. Their expeditions have taken them from the Arctic to the Antarctic and many places in between and their work has been used to support a variety of research and educational programs. Accomplished photographers, frequent lecturers and prolific writers, Michael and Christopher devote their efforts to telling the stories of our maritime and cultural history while striving to protect the marine world.

Accomplished photographers, frequent lecturers and prolific writers, Michael and Christopher devote their efforts to telling the stories of our maritime and cultural history while striving to protect the marine world.

### OUR PARTNERS

#### ABOUT MANNA SEAFOOD BLOCKCHAIN

Manna Ocean Foundation's mission is to drive sustainable development of offshore Aquaculture through education and research. Opening new offices and operations at 22 Inlet Road, Southampton, New York, the foundation plans to operate educational programs at their restaurant, Manna at Lobster Inn as well as a new hatchery at the same location. Their programs aim to confront the several challenges currently facing deep-sea mariculture including technical and mechanical limitations of the growing and harvesting equipment; Lack of academic studies that demonstrate the commercial viability of deep-ocean aquaculture; and a lack of consumer awareness of the benefits of deep-sea mariculture.

#### ABOUT ECO-PHOTO EXPLORERS

Eco-Photo Explorers (EPE) is a New York based organization formed in 1994 to help promote public interest in protecting the underwater environment through knowledge and awareness using underwater photography. Photography, multimedia presentations, lectures and freelance writing are all utilized to achieve this goal. They are also available for SCUBA Demonstrations and Technical Support in Research Projects, Scuba Diving Support and Photo Documentation of Projects.
